A Wonderful Record.

As made up by improved and exact processes Dr. Pierce's Favorite Prescription is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. It cures the backache, periodical headaches, the dragging-down distress in the pelvic region, the pain and tenderness over lower abdominal region, dries up the pelvic catarrhal drain, so disagreeable and weakening, and overcomes every form of weakness incident to the organs distinctly feminine.

"Favorite Prescription" is the only medicine for women, the makers of which are not afraid to print their formula on the bottle wrapper, thus taking their patrons into their full confidence. It is the only medicine for women, every ingredient of which has the strongest possible endorsement of the most eminent medical practitioners and writers of our day, recommending it for the diseases for which "Favorite Prescription" is used. It is the only put-up medicine for women, sold through druggists, which does not contain a large percentage of alcohol, so harmful in the long run, especially to delicate women. It has more genuine cures to its credit than all other medicines for women combined, having saved thousands of sufferers from the operating table and the surgeon's knife. It has restored delicate, weak women to strong and vigorous health and virility, making motherhood possible, where there was barrenness before, thereby brightening and making happy many thousands of homes by the advent of little ones to strengthen the marital bonds and add sunshine where gloom and despondency had reigned before.

Write to Dr. R. V. Pierce. He will send you good, fatherly, professional advice, in a plain, sealed envelope, absolutely free. Address him at Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets do not gripe. They effectually cleanse the system of accumulated impurities.

The People's Common Sense Medical Adviser, by Dr. Pierce, 1008 pages, is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address as above.

THE POWER OF STEAM.

Many May See But It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was.

Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair, and consequent Baldness, and has unearthed a tiny germ which eats the life from the roots of human hair.

Newbro's Herpicide destroys this germ and consequently restores the hair to its natural state.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

TO FULFIL SUICIDE PACT.

When the La Provence steamed down New York bay yesterday morning, bound for Havre, there stood on her deck one who looked his last on America, the land of his adoption, for he is on his way to Lecco, in Lombardi, Italy, to commit suicide on the grave of his sweetheart.

Luigi Contarimi is the man's name. He is but twenty-four years old, and his return is in compliance with the wish of Josephine Ballantini, expressed in her letter to him, written just before she drank a fatal potion, rather than marry one whom her parents would force upon her.

Luigi has been in America for four years. Soon after his arrival he went to Oklahoma, where he prospered and where he is now a wealthy ranch owner.

When he left Lecco he bade good-by to Josephine. She vowed to wait for him until he could provide a home for her in the wonderful country beyond the seas.

As time sped, the parents of Josephine also prospered. They no longer smiled upon the pretensions of Luigi, but picked out a young man of the village for their son-in-law, and Josephine was told that she must become his wife.

Josephine wrote to Luigi and told him her trouble, but she swore that she would remain true to him. She would die first, she said. Parental authority was insistent, however, and the day was set for the wedding. All waited the bride, but she came not. Then she was found lying dead, and by her side was the letter to Luigi. In it she said that she could not live without him, and she asked that he join her in the great beyond.

When Luigi received the letter he settled his affairs in Oklahoma and sped to New York. On the way he saw his brother Antonio in Paterson, to whom he told his resolve.

Antonia was on the pier, in New York yesterday, and begged his brother to reconsider. Luigi was obdurate. Antonia fell upon his knees. He implored; he prayed. His screams as the vessel pulled out were terrifying, and he was finally led away.

And from the taffrail Luigi waved his last farewell to home and hope.

Deficiency in Church Funds.

It is understood that the French bishops and archbishops assembled in Paris to devise means of meeting the provisions of the law providing for the separation of church and State, without violating the laws of the church, devoted yesterday to the discussion of the resources of the church in an effort to discover some method of providing funds to supply the deficiences occasioned by the withdrawal of the budget for the department of public worship.

The prelates are said to have recognized the impossibility of laying down an identical system for town and country and consequently decided that each diocese shall in future organize its resources according to circumstances. It was stated on some authority that the prelates will not make any proposal for maintaining the status quo until December, when the church and State separation law goes into full force.

If the government decides to expel the clergy from their churches the episcopate will then consider taking further action to safeguard their interests. It was further asserted that the clergy in general will not be informed of the resolutions adopted by the bishops until the Pope's approval of them has been obtained, after which diocesan councils will be called and the text of the resolutions will be communicated to them.

Scarcity of Principals.

Superintendent Eggleston, of the Department of Public Instruction, says there are several high schools in Virginia which have no principal for the coming term. "The schools want principals at this time," he said, "and there is one school, about ready to open, at Atlees, which elected a man and who declined. The pay is not too great, but it shows that pay is better in most any other calling, vocation or profession than teaching. There is another reason: In every section of the State there is a wonderful increase in school matters. Teachers are in demand, and men who are qualified to take charge of schools as principals are growing fewer each year—either taking such courses as will fit them for better and higher work than as principals of schools in small places or are getting into the other professions—medicine, dentistry, law, engineering, mechanics, electricity or something else than schoolteaching. Teachers and principals are in demand in all parts of the State."

FRIDAY EVENING, SEPT. 7, 1906.

THE ELEVEN days from September 3 to 13 inclusive are memorable for having once been entirely omitted from the calender of the Anglo-Saxon world. The Gregorian calender was not adopted by the British Empire until 1751, long after most other nations of the civilized world had conformed with it. In that year an act of Parliament prescribed that the next year, 1752, should begin on January 1, instead of on March 25, as had previously been the rule, and that in the following September these eleven days should be dropped from the calender, the day following September 2 being known as September 14. Stirring times those were, too, in which days were not lightly to be spared from a year, with Clive conquering India and Washington beginning the conquest of the Ohio Valley. But the precession of the equinoxes took no note of trifles like these, which could be accomplished as well under one calendarial style as another. It may be observed that, while Gregory dropped only ten days from 1582, eleven days had to go from 1752, and Russia would have to drop thirteen from 1906 to square her date with the rest of the world.

WARRANTS for fifty-seven Philadelphia candy dealers whose wares have been found to contain adulterants are being prepared by Dairy and Food Commissioner Warren, and arrests will be made at once, as it is proposed to hold a number of the hearings this week. Philadelphia candy merchants to the number of 22 will be forced to explain their alleged non-compliance with the State health requirements, as will also dealers from many other sections of the State. Among the warrants in course of preparation at the present time is one for a merchant, against whom it is alleged that he has attempted to add to the strength and color of his vinegar by introducing into it foreign matter injurious to the health of the consumer. The first of the hearings are set for today, and the full penalty of the law should be imposed upon the adulterators.

SECRETARY TAFT'S unequivocal declaration in favor of tariff revision in his speech at Bath, Maine, Wednesday is construed as meaning that he will base his claims to the presidential nomination upon that doctrine in opposition to the "stand-pat" attitude assumed by nearly every other man now mentioned in connection with the next presidential national convention. Mr. Taft's position on this question is exactly that taken by Representative Burton, of Ohio, and the other "progressive" republicans of that State who are laboring now to overthrow the Dick-Foraker machine. It is evident that Secretary Taft, as an Ohio man, has decided to cast his fortunes with those of Burton and the anti-machine men, and that if he is to obtain the support of the Ohio delegation in the convention he will obtain it through Burton and as the result of the defeat of Dick and Foraker.

"SPEAKING my individual opinion and for no one else," said Secretary Taft, in his campaigning speech at Bath, Maine, "I believe that since the passage of the Dingley bill there has been a change in the business conditions of the country, making it wise and just to revise the schedules of the existing tariff." This induces the Philadelphia Record to ask what must the assembled stand-patters have thought of it in the land of Dingley coming fresh from the lips of a man who is hailed as the Roosevelt preference for the presidential successorship?

"STRANGER things might happen than Roosevelt being President until 1912," said Speaker Joseph G. Cannon, in the course of a speech in Rockland, Me., yesterday. The statement was made after Mr. Cannon had discussed recent utterances of Mr. William J. Bryan and was along the line of similar statements made by other republican politicians on this subject. Indeed many people believe that Bryan and Roosevelt will be the presidential candidates in 1908.

CHAIRMAN CORTELYOU is hanging around Wall street a good deal these days, with frequent visits to Oyster Bay. There is a strong suspicion that he is making the tariff protected trusts "come down" for the republican campaign fund like he did the life insurance companies in the last campaign. President Roosevelt will have a chance to deny that the corporations are subscribers, but he will not be so positive as he was in 1904 when Judge Parker caught him red-handed.

MR. BUTTON, the Insurance Commissioner of Virginia is said to be making the most rigid examinations into the affairs of companies already in the State and others desiring to enter, and is "turning them down" when he thinks they ought to go. He cannot be too particular. Wild cat insurance companies are a curse to any community.

THIS IS just the kind of weather to brace up the people who have returned to town from their vacations and are naturally somewhat run down after their ardent pursuit of rest and recreation.

From Washington.

(Correspondence of the Alexandria Gazette.)

United States Minister Hicks, now at Santiago de Chile, cables the State Department today that the suffering throughout Chile, and especially at Valparaiso, is intense as a result of the recent earthquake. Minister Hicks makes an earnest appeal that the people of the United States immediately respond to the calls for aid made in behalf of the Chileans.

It is recommended by the court of inquiry appointed by the Secretary of the Navy to investigate the collision off Newport, R. I., on July 31st, 1906, of the battleships Alabama and Illinois, that Captain Samuel P. Comly, commanding the Alabama, and Lieutenant Alfred W. Prossey, who was officer of the deck on the Alabama when the collision occurred, be tried by court martial. Secretary Bonsparte now has these recommedations under consideration and will announce his decision in a day or two. The court of inquiry exonerated from all blame Captain Herbert Winslow, commanding the battleship Kearsarge, which also became involved, on the ground that he was avoidably absent from the bridge of his ship at the time, but recommends that Midshipman Roy C. Smith, the deck officer of the Kearsarge at the time of the collision, be reprimanded. The court puts all the blame for the collision on the officers of the Alabama.

United States Ambassador David E Thompson, at the City of Mexico, declares in an official report made by him to the Secretary of State that all reports of a bitter anti-American feeling in Mexico are utterly false and without any truthful foundation. He further states that there is no dissatisfation in Mexico against the administration of President Diaz, as has been declared in certain inspired statement emanating from a coterie of disgruntled Mexicans who have established a revolutionary junta in this country for the purpose of working up anti-Mexican enthusiasm.

Secretary Shaw today issued the following important notice to all depository banks. "I am advised that many banks, scattered throughout the country, are loaning their surplus funds through brokers and others in New York on call at high rates of interest. Money loaned on call is well nigh universally for speculative purposes. I recognize the right of any individual to speculate in stocks or lands, and the legal right of any bank to loan money to at appropriate rates of interest, at home or abroad, on ample security, even with knowledge that it is being used for speculative purposes. I am not willing, however, that Government money shall be enticed away from the locality where it has been deposited for the purpose of being used in this way. Public deposits are made in aid of legitimate business as distinguished from speculation whatever its nature. Depository city banks are expected to loan at regular rates or not at all and they must not be tempted to act as agents instead of correspondents for other depository banks in making call loans at high rates. If you have more money than your community can appropriately absorb, please return it to the Treasury, for it can be promptly placed where it will do much good. This does not apply to banks with large reserves regularly on deposit with city correspondents."

The Postoffice Department issued a fraud order today against W. C. Cunningham of Minneapolis, Minn., and land companies with which he was connected. Advertising to purchase farms. Cunningham required his would-be patrons to send him a listing fee of from $2 to $5. The inducement held out to get this fee is characteized by the postoffice officials as an "absolute fraud".

The semi-official peace parleys that are in progress between the Cuban government and the insurgent leaders were interrupted yesterday, when a detachment of 50 government troops encountered a band of General Guzman's insurgents near Camarones. A sharp fight ensued, with the result that the government troops were routed, leaving a large part of their force dead or wounded.

The Department of Justice this afternoon directed the District Attorney at Valdez, Alaska, to immediately released the five Japanese fisherman captured on Saint George's island the other day as seal poaching suspects. The evidence was not strong enough to sustain the charge.

Murder in Richmond.

A man who staggered from an alleyway on Broad street, next to the Klondyke saloon, in Richmond late Wednesday night, and with bleeding head and crushed skull, fell to the sidewalk, was identified by his 15-year-old son at the morgue yesterday as C. C. Henderson, aged 53, a carpenter at the Chesapeake and Ohio car shops. The boy looked at the ghastly wound in the head of the corpse, and, recognizing his father, fainted and fell. Two young married women were in the house over the saloon to which the alley leads, out of which the murdered man's body was shoved. They went to Richmond from Roanoke on an excursion, leaving their husbands behind. One is Mrs. Muse, the other, Mrs. Nora Barnes. The latter left for Petersburg and is not yet in custody. Mrs. Muse was arrested, but later dismissed, as the police think Mrs. Barnes is the one they want most, believing she was in company with the man, yet unknown, who hit Henderson the fatal blow. Mrs. Muse referred to her husband as "Will," and begged that her name be kept secret. They were inquired for at the house kept by Ida Penn by the names of Lucile and Viola. Mrs. Muse admitted that she adopted the name of Lucile and Mrs. Barnes that of Viola to conceal their real names. They were driven from the house by the proprietress after the tragedy and were found by the police in another house. The police think they know more than they have told concerning the tragedy. A coroner's inquest will be held today.

Harry L. Maynard, of Portsmouth, has been renominated for Congress by the democrats of the Second district by a plurality of seventy-two votes, according to revised returns from all the cities and counties in the district. The vote in the district was: Maynard, 8,317; Gabell, 8,246. It is said that the letter written by Mr. Gompers urging the renomination of Mr. Maynard hurt the latter, as the people of the Second district resented the interference from outside parties.

The strained relations between Spain and the Vatican are occupying the attention of the entire Spanish press and public. Jasper Thompson, a well-known colored man, residing about two miles from Charlestown, W. Va., was shot and killed yesterday afternoon by S. A. Marion, also colored. For some time past the men have had trouble about some hogs of Thompson's which were in the habit of breaking into Marion's lot. Thompson went to Marion's house, knocked at the door, informed him he was going to kill him, and started in. Marion undertook to stop him, and reaching for his pistol, shot Thompson twice. Marion gave himself up.

At the meeting of the international policyholders' committee at the Waldorf-Astoria, New York, yesterday, at which Rich. Olney presided, and at which almost the full membership was present, the letter recently written by Bishop McCabe to Alton B. The proceedings were held behind closed doors but it is understood that failure to attend meetings of the committee was the cause of the latter's action.

After being placed in the morgue wagon and started on a journey to the morgue in Washington, unclaimed, John Forsythe, forty years old, who was apparently lifeless when fished from the water at the north end of the highway bridge yesterday afternoon showed signs of life on the way. The attending physicians have also as yet failed to discover whether the occurrence was an accident or an attempted suicide.

Charged with being the first person to violate a recent rule of Public Printer Stillings, forbidding an employe from interfering or annoying a fellow-worker in the discharge of his duties, Ernest Johnson, a bookbinder, was suspended from the government printing office yesterday by acting Forman Ashion. Johnson is charged with abusing one of the other bookbinders because Johnson thought he was making too much speed.

Pensions for everybody at the age of 60 was among the proposals adopted at yesterday's session of the Trades Union Congress in Liverpool. The advocates of the resolution contended that the money necessary for the pensions could easily be raised from among the wealthy by taxing land values. A resolution in favor of treaties of arbitration, coupled with an emphatic protest against the increase of armaments or insidious attempts to introduce conscription in Great Britain was also carried. The Congress also instructed the labor members of Parliament to insist on trades union rates of wages being inserted in all government contracts.

Hauls Wife Back From Grave.

Pottstown, Pa., Sept. 7.—It was too much for the sensibilities of W. H. F. Roth, of this place, when the sexton of Mount Zion Cemetery let fall the clods of earth on the casket of his beloved wife. So, to the surprise of the preacher, who had just pronounced the words "Earth to earth, dust to dust," Roth ordered that the casket be brought to the top of the grave. This was done, and the coffin was taken to an undertaker's shop, where daily for almost a week Roth has gone to look at the features of his dead wife. He has now applied to the cemetery company for permission to build a vault of such peculiar construction that he will be able to see his wife whenever he desires. Pending the settlement of this question, the body, which has been embalmed, will remain at the undertaker's morgue.

Letter to Goodloe & Co.

Alexandria Virginia,

Dear Sirs: Now, may be, you can't get the goods; if you can, your fortune is made.

Cotton cloth—they call it muslin in some parts—at about the usual price per yard, but wider, twice as wide as some, and better, wears better, keeps white and whole a surprising time in all sorts of wear.

You cou'd sell that cloth for hundreds of miles; there'd be no limit,

A yard goes further; one buys less yards. Wears longer; one buys less often. It always looks right till well worn-out. No one customer buys so much of it, but think of the number of customers!

May be you can't get it in cloth: but you can in paint. Devoe. Devoe is as if it were wider; a gallon goes further; you buy less gallons; you pay for less gallons; you pay for painting less gallons—as if one paid less for making a garment of that wide cloth—and it keeps its fresh look and sheds water till you have forgotten how old it is.

It isn't true in cloth, but it is in paint; the less you pay, the better it is; for the goodness of paint is reckoned by gallons; less gallons, more goodness. Goodness in paint is strength. The stronger a paint, the less gallons it takes for a job and the longer it wears.

Today's Telegraphic News

The Real Estate Trust Company.

Philadelphia, Sept. 7.—Depositors and creditors of the Real Estate Trust Company see hope today, and they are inclined to support Receiver Earle in his plan of reorganizing, as the directors have already supported it. He will reopen the doors of the Real Estate Trust Company and pay all depositors in full. The scheme includes a proposition to give depositors preferred stock for part of their claims. It did not meet with much favor from the depositors at first. They said: "We don't want stock; we want cash. We want the directors to put it up. They're able to, and they're responsible." This obstacle, the hardest possibly, the hard-worked receiver will have to surmount, has been partly removed by the present proposition to pay only 30 per cent of the claims in preferred stock, 30 per cent to be paid in cash, and 40 per cent in thirty or sixty days after the reopening of the bank.

It was reported on the floor of the Stock Exchange here late this afternoon, that the reorganization of the Real Estate Trust Company, has been accomplished and Receiver Earle has been elected President.

Father Meyer's Chances.

Rome, Sept. 7.—The outlook today for the selection of Father Rudolph Meyer, of St. Louis, as the next General of the Jesuits is not so bright. At present the outlook is that some dark horse candidate will secure the coveted honor. This is the last day which can be devoted to campaigning, as the election occurs tomorrow. Unless the deadlock can be broken at once in favor of the American candidate his chance before the congregation will not be worth much. The Italian and French delegates, who control twenty-seven votes, are distinctly opposed to Father Meyer, declaring they do not want an American General. The Germans are working hard to capture the position for one of their fellow countrymen on the ground that there are more Jesuits in Germany than in any other country.

Accident to a Physician.

Philadelphia, Sept. 7.—The fractured skull and both legs broken, one above and one below the knee, Dr. Maud Howell, aged 30, of Laconia, N. Y., resident physician at the Womens College, this city, lies hovering between life and death, at the institution. The accident which is responsible for her condition, appears to be mysterious. Last night, she came down stairs to the gymnasium in the first floor. A door from this room leads into the elevator shaft and is always locked. She unlocked the door and stepping forward plunged directly down the shaft into the cellar. When she recovered sufficiently to talk, the injured woman said she thought she was entering a supply closet,

Cured of Leprosy.

New Bedford, Mass., Sept. 7.—Absolutely cured of leprosy, Mary Barros has been discharged from the state leper colony on the island of Penikes. Mrs. Barros has been confined there for the past two years under strict surveillance of the state board of charities. The question of her final release from the custody of the state authorities will come up at the meeting of the Board, today. It is believed that the woman is the first sufferer from that disease who has been cured in this country. The physicians who had charge of her case, declared that leprosy invariably responds to proper treatment, and they entertain hopes of similar success in they cases of four other residents of the Penikes colony.

Jail Delivery.

Berlin, Sept. 7.—A successful jail delivery in which fifty-six revolutionary agitators were released, was accomplished at Warsaw, Poland, last night. Six soldiers on duty at the prison fortress mutinied and shot the director of the prison. The warders were then bound and gagged and the entrance to the cells was blown up with dynamite. All of the men released were members of the Polish revolutionary commission. An attempt at jail delivery was made at Penza. Convicts set fire to the prison, but only one man made his escape.

Will Stump New York.

New York, Sept. 7.—William Jennings Bryan will stump the Empire State for District Attorney Jerome, if the democratic State convention nominates Mr. Jerome for Governor, say the friends of the District Attorney today. Politicians high in the counsels of the party say that Mr. Bryan feels deeply the alleged coolness of Mr. Hearst toward him, and will take this opportunity of whacking the New York editor by stumping for District Attorney Jerome, who is bitterly antagonized by the Hearst party.

Lion Attacks Trainer.

Watertown, N. Y., Sept. 7.—While in a cage with three lions, making them perform before a crowd of several hundred persons, at the Jefferson County Fair Grounds, yesterday afternoon, Capt. Richard Bass, a trainer, narrowly escaped being torn to pieces. One of the lions was sullen, and when Bass turned his back for a moment the animal leaped upon him, burying its teeth in his back. Bass managed to retain his footing and beat the animal off, but was painfully lacerated and scratched.

Beaten and Robbed.

Martin's Ferry, O., Sept. 7.—About midnight last night George Lewis, a prominent resident of Martin's Ferry, was set upon by a gang of thugs, beaten to insensibility and then robbed. The thieves placed the body on the railroad track, and James Arbaugh, a grocer, pulled it off just in time to prevent Lewis from being run down by a train. Lewis will die from the injuries received. No arrests have been made.

Says He Will be Elected.

Oyster Bay, N. Y. Sept. 7.—Representative and Mrs. Nicholas Longworth left Oyster Bay, at 11:15 a. m., for Cincinnati. They expect to catch the 3 p. m., train at Jersey City. Before leaving Mr. Longworth announced very emphatically, that he would be renominated and re-elected, and denied with considerable warmth the report that "Boss" Cox, of Cincinnati, was planning his defeat.

In these days of rush and hurry courtesy is often forgotten. In the mad, pell mell rush of our little life things are done to offend that we rather remained undone. A hastily eaten meal and its resultant headache may cause us social or financial loss. The wise man or woman is the one who relieves little ills of this sort by a little dose of Kodal For Dyspepsia. It digests what you eat. Sold by W. F. Creighton & Co., 601 King street.

Mutiny on Yacht.

Philadelphia, Sept. 7.—Mutiny among the crew of the yacht Sybilla, a private pleasure craft, belonging to John F. Betz, jr., son of the millionaire brewer and director of the wrecked Real Estate Trust Company, resulted in an armed battle early this morning, in which one man was thrown overboard and two others were badly wounded. The yacht was lying at the Camden dock when a row started over some luggage to be taken aboard. The Sybilla's crew are foreigners and racial prejudices inflamed the combatants. Knives and dirks were brought in and two Italians, seamen, were stabbed. A Greek sailor was tossed into the Delaware river and reported drowned. The Delaware harbor police grappled for his body, but he managed to clamber aboard again, after being in the water more than an hour. Two of the belligerents were arrested and two others are in the county prison, Camden.

From Cuba.

Havana, Sept. 7.—Quiet reigns in Havana and Santa Clara provinces as the result of the armistice arranged yesterday, but in Pinar del Rio province the situation is threatening. All efforts to induce Pinar Guerra to agree to armistice have failed so far and he is close upon the city of Pinar del Tri with an army estimated at 3,000 men. Colonel Avalos, the loyalist commander, has a much smaller force which can hardly hope to successfully oppose Guerra's number. Hopes are still entertained that the peace commissioners sent to Guerra will succeed in arranging an armistice.

Reopening of hostilities is threatened in the eastern portion of Santa Clara province despite the temporary peace agreement entered into by Col. Asbert and Col. Guzman. General Juan Bravo, at the head of 1,800 insurgents, is threatening the town of Trinidad. Peace commissioners have not reached his camp to propose an armistice.

Railroad Laborers Fight.

New Brunswick, N. J., Sept. 7.—Striking section hands on the Pennsylvania railroad clashed with gangs at work near Steelton today and a riot followed. Six men on each side received serious injuries. In the clash the Pennsylvania railroad men made a demand upon the sheriff for deputies to preserve order and protect the men at work. The sheriff immediately swore in fifteen deputies and sent them to the scene of the rioting. Similar attacks upon workmen are expected to occur in other sections and the sheriff is prepared to swear in additional deputies at a moments notice.

Panama Election.

Panama, Sept. 7.—The election of vice presidents of the Panama republic by the new national assembly yesterday resulted as follows: First vice president, General D. Obaldia; second vice president, Sam Boyd; third vice president, General Aizpuru. Great bitterness was aroused by the election on account of the contest between General Obaldio and Senor Guardia. This culminated in a general street fight on Tuesday between the partisans of the two candidates and the killing of Congressman Demetrio Quintero, a supporter of General Obaldia.

The Stranded Steamer.

Honolulu, Sept. 7.—The wreckers engaged in the effort to float the Manchuria have found the vessel to be not badly injured and resting easily on the reef.

It is thought she can be saved if the weather remains fairly good. The transport Sheridan is full of water and somewhat damaged but Captain Humphrey hopes eventually to float her.

Gov. Folk's Condition.

Jefferson City, Mo., Sept. 7.—Gov. Folk is no better today, but his attending physician is not in the city. No one outside of the immediate family is permitted to see the Governor. Mrs. Folk informed inquirers this morning that he was not improved.

Soldiers Prostrated by Heat.

Berlin, Sept. 7.—Three thousand prostrations from heat have occurred among the soldiers engaged in the maneuvers in the province of Silesia, Prussia. So terrific is the heat that hundreds of the troops have dropped by the way on marches or fallen in the fields. Field hospitals are crowded to their limit and the ambulances have had more work than they could attend to in caring for the heat victims.

Congressman Robertson Defeated.

New Orleans, Sept. 7.—The returns thus far received show that Congressman Samuel Robertson, of the Sixth Louisiana district, member of the ways and means committee, has been overwhelmingly defeated for renomination by George K. Favrot, a young lawyer. The nomination is equivalent to election. Robertson has been Congressman for eleven years.

Speaker Cannon.

Rockland, Me., Sept. 17.—Speaker Cannon declared this morning that his slight illness of last night was only a malarial attack, and that he felt as well as ever, today. He made an early start for Damariscotta, where he will speak this afternoon. The trip of 25 miles was made in an automobile. Tonight the Speaker will deliver an address in Portland.

New York Stock Market.

New York, Sept. 7.—The street and room were full of bull points before the opening on the Hill stocks; Reading and Union Pacific and in the early trading these stocks made sharp advances. The supply increased, however, as higher price levels were reached, and the demand became less urgent during the first hour. Some of the buyers especially room traders, who had taken an aggressive position on the bull side, turned sellers and quickly unloaded all the stocks they accumulated in the first few minutes. This made an irregular market in the active issues the early advances before followed by a reaction of about 1 point. On this reaction, buying orders appeared from many strong interests, and in some stocks it was of an impressive character and the supply was exhausted just as quickly as the early demand had been filled. The most significant buying was in northwestern, which sold at 218. Reading, after an early advance to 146¾, dropped to 143¾, and then quickly rallied above 144.

Rescue of a Merchant.

A prominent merchant of Shongo, N. Y., J. A. Johnson, says: "Several years ago I contracted a cough which grew worse, until I was hardly able to move around. I coughed constantly and nothing relieved my terrible suffering until I tried Dr. King's New Discovery. Before I had taken half a bottle my cough was much better, and in a short time I was entirely cured. I surely believe it saved my life. It will always be my family remedy for colds." Tawney, of Minnesota, member of the national republican congressional committee, who in New York today declares that the republican party will control the next Congress by a margin only slightly reduce from the last sessions majority. He admits that the democrats here and there will make slight gains.

Mrs. Astor was far more seriously ill than at first admitted. She will return to Newport to convalesce.

Investments.

Every day we hear some one say why is it that Alexandria is dead when she should be booming, and that new enterprises should be brought here because we have got new streets, a new line of steamboats and a local car line to Washington. That is all very good, but why not boom home industries first by interesting some of the idle money that is deposited in our banks and invest some of it in a mattress factory and wheelbarrow plant. You may then invite capitalists to come here, but unless you have some local interests they will pass Alexandria by and go where there is a little industry Alexandrians are noted for their willingness to take stock in some western railroad or gold mine, good or bad, but when it comes to putting their money in a home enterprise they can't be found, and should they invest a few hundred dollars at nine o'clock a. m. they want their interest at twelve and principal by six and then say what a nerve we have got. Mysterious Assault.

Joseph Saddler, of Georgetown, while accompanied by Miss Tassie Bywater, of Rappahannock county, Va., was shot in the neck and badly beaten, in the picnic grounds just outside Luna Park, last night.

There was intense excitement at the park when Saddler, with the blood spurting out of his wounds, rushed through the park gate, hand in hand with Miss Bywater, whose clothes were literally covered with blood.

Saddler as he was conveyed to the Park hospital, said that a negro had attacked him.

An examination of Saddler wounds by Dr Hudson, the park physician, disclosed that he had been shot in the neck, the bullet penetrating to the jaw, where it lodged. His cheek was cut, and two serious scalp wounds were found. It is not thought that he is fatally injured, although he repeatedly moaned that he would die.

Saddler later gave an account of his terrible adventure. He said he was taking a walk with Miss Bywater in the picnic grounds, while they were awaiting for an Alexandria car. As he and Miss Bywater were conversing, he says, that a negro suddenly appeared from behind him and after beating him over the head with a stone or some rough weapon, fired the shot that took effect in Saddler neck.

Miss Bywater, who is twenty-eight years old, was detained as a witness by order of Sheriff Palmer. She related practically the same story as that told by Saddler She said that the shot that took effect in Saddler was fired so close to her neck that it burned her, and that the blood spurting out of Saddler's wound spattered her clothes. She says that immediately after the shot was fired she and Saddler started to run toward the gate of the park, but that Saddler fell, and she cried out for help.

Miss Bywater is visiting her aunt, Mrs. Forrest, at 325 Queen street, in this city, She says that Saddler comes from near her home in Rockingham.

Saddlers was conveyed at a late hour to the Emergency Hospital, Washington. The physicians there say that his conditions is not serious.

Saddler is a carpenter and unmarried

The shooting is shrouded in mystery. The young woman says the assailant did not utter a word and he made no attempt at robbery.

The assault on Saddler took place after ten o'clock, and at 10:40 Lieutenant Smith received a message from Manager Gill at Luna Park requesting him to send an officer to that place, as a man had been shot. The lieutenant detailed Officer Lyles, with the consent of Mayor Paff, to proceed to the park. When Mr. Lyles reached his destination he was met by Sheriff Palmer of the county, who requested him to take charge of Miss Bywater and to detain her at the station house in this city as a witness of the assault, as he was of the opinion that she was in possession of additional facts concerning the shooting Officer Lyles subsequently conducted Miss Bywater to this city and upon reaching the station house Lieutenant Smith made her as comfortable as possible in one of the upper rooms. Her coat, which she said Saddler was carrying on his arm at the time of the shooting, was discolored with blood stains, and the back of her neck and shoulders were burned by powder. She was very nervous. Her statement to the lieutenant was substantially as given above. She said she did not know whether Saddler's assailant was a white or a colored man.

She was still in the upper room of the station house this morning awaiting the action of the county authorities. Her nervousness had in no wise subsided, and while newspaper representatives talked with her she flinched and at times acted like a person receiving an electric shock. She said she was walking with Saddler in Luna Park last night and passed out of the enclosure between the circle swings and the rollercoaster in the northwestern part of the grounds They proceeded towards the electric railway tracks and were not twenty yards from the park when Saddler was shot. Miss Bywater said she did not know at the time that her escort had been struck with a stone, but when the pistol was discharged she ran and screamed. She repeated the statement that she was unable to tell whether the man who did the shooting was white or black. Miss Bywater is of a settled appearance and wears spectacles.

There are many speculations concerning the shooting. Some suggest that the couple were mistaken for other parties.

Commonwealth's Attorney Mackey, Sheriff Palmer and two deputies came here this afternoon and conducted Miss Bywater to Luna Park in order to ascertain from her the route she and Saddler took when they went outside the park, as well as the spot on which the shooting occurred. She will later be taken to the county court house where the case will be examined.

Thrown from a Buggy.

Mrs. Harry Catts was thrown from a buggy on King street, near Lee, yesterday, but fortunately escaped without serious injury. She was proceeding down King street when the horse attached to the buggy slipped on the vitrified brick pavement and fell. Mrs. Catts was precipitated on the horse's back and became entangled in the harness. A number of persons ran to her rescue and soon extricated her. The horse and buggy were uninjured.

Excursion Tonight.

All the arrangements for the moonlight excursion tonight have been perfected, and an enjoyable time is assured all who patronize it. The new steamer Jamestown will arrive here at 7:30 o'clock and take the excursionists aboard, after which she will proceed about 30 miles down the Potomac. The receipts from the excursion will be devoted to the parsonage fund of St. Mary's Church in this city.

The barge Howard, from Philadelphia with fertilizer to the Alexandria Fertilizer and Chemical Company, has arrived.

School Board.

The monthly meeting of the City School Board was held last night.

Capt. Herbert Bryant, chairman, presided, and all but one of the members were present.

Mr. Yates reported that all the work of necessary repairs to the school buildings had been completed except some tinning. He said the rear fence at Washington building had been rebuilt at a cost of $60 and that the adjoining property owners should pay one half of the bill. He had given all the work his personal supervision and suggested that the superintendent's room needed some improvements.

Mr. Carter suggested that new curtains be hung in the Board's room and the matter was left to the superintendent.

A number of bills for repairs and supplies were ordered to be paid, and the clerk was directed to see the owners of the property in the rear of Washington building and request them to pay their share of the cost of erecting the party fence there.

The superintendent reported that all the arrangements had been made for issuing permits to the children, which is to begin at Armory Hall next Monday morning.

The superintendent was authorized to appoint a janitor for Hallowell building in case of a vacancy in that position.

The clerk presented the bids for fuel and was authorized to award the contracts to Mr. DeW Aitcheson for hard coal and wood, and to Mr. R E. Grover for Cumberland coal, they being the lowest bidders.

Formation of a Chamber of Commerce.

Representatives of a number of Alexandria business houses met at the Fleischmann Hotel last night for the purpose of forming a chamber of commerce. The meeting was the outcome of a movement inaugurated several weeks ago when a canvass of the city was instituted in order to form an association of the business men. The fact that the capital city was engaged in a movement for a greater Washington animated mercantile and manufacturing circles in Alexandria to set out on a similar mission.

W. A. Smoot, jr., was elected president; J T. Johnson, vice president, and T. C. Smith, temporary secretary. A permanent secretary, who will be a salaried officer, and who will be expected to give his entire attention to the business of the organization and the advancement of the business interests of Alexandria, will be chosen at a meeting to be held in the near future.

The names following were enrolled at the meeing:

Charles King & Sons Company, N Lindsey & Co., H. Kirk, jr., F. S. Harper, J H Orilly, C C. Smoot & Sons Company, Smoot and Co., H K. Field & Co., E S. Leadbeater & Sons, the Alexandria National Bank, the Mutual Ice Company, A. D. Brockett, the Bell-Pre and Old Dominion Glass Companies, the Miller Company, Bendheim & Hill, J. M. Hill, Julian Y. Williams, the Robert Portner Brewing Company, the Emerson Pump Company and the Carlin-Hulfish Company.

It is understood that real estate agents and dealers are not eligible to membership.

Still at Large

Pictures of the man who is suspected of stealing a box containing $499.13 belonging to the Washington, Alexandria and Mount Vernon Railway Company in this city last Wednesday morning have been sent out by the railway officials, together with circulars offering a reward of $50 for his apprehension and conviction. The fugitive is believed by the police of this city to be near Alexandria, and they are confident he will soon be captured. His movements Wednesday, it is believed, were intended to mislead the officers and to cause them to suppose that he had left this part of the country. They are now convinced that he is not far from Alexandria, as they have been unable to trace him any great distance, although dispatches have been sent to every quarter of the compass, and officers of the law in this section of Virginia have been on the lookout for the fugitive.

Disorderly Women.

Four women, whose names appear in the Police Court proceedings, came here yesterday from Washington and made themselves conspicuous by getting drunk and riding around the northeastern section of the city in a carriage. They soon attracted the attention of the police who intercepted them at a house on north Lee street. The women were taken into custody with some of the inmates of the house. George Griffin, who was a witness to the arrest, became indignant at the procedure and his interference with the officers caused them to put him under arrest also. The women left collateral for their appearance this morning, but when the case was called the Washingtonians were not present and forfeited their collateral. Two of the Alexandria women were fined $5 each and another dismissed. Griffin was fined $5 and in addition sent to jail for 30 days.

Boy Stole Forty Dollars.

Lieutenant Smith yesterday arrested a youth named Edward Graney on the charge of stealing $40 from Clifton Perdue, a workman at the Risheill planing mill. The boy, who is 13 years old, had purchased a gun for $10 and 100 shells for which he had paid $1.60. Twenty dollars of the stolen money was found in Graney's possession. The boy was arraigned before Justice Caton in the Police Court this morning when the plaintiff declined to prosecute him on account of his tender years and by the fact that by Lieutenant Smith's prompt action most of the money had been recovered.

Torture By Savages.

"Speaking of the torture to which some of the savage tribes in the Philippines subject their captives, reminds me of the intense suffering I endured for three months from inflammation of the Kidneys," says W. M. Sherman, of Cushing, Me. "Nothing helped me until I tried Electric Bitters, three bottles of which completely cured me." Cures Liver Complaint, Dyspepsia, Blood disorders and Malaria; and restores the weak and nervous to robust health. Guaranteed by E. S. Leadbeater & Sons' druggist. Price 50c.

The following cases were disposed of this morning:

Charles Smith, colored, arrested by Lieutenant Smith for disorderly conduct and fighting, was fined $5.

Bessie Johnson and Kate Williams, arrested by Officers Jones and Bell charged with disorderly conduct and fighting, were fined $5 each.

J. R. Crawford, arrested by Officer Ferguson charged with destroying the property of H Fleischmann, was sent to jail for ten days.

Mack Jamieson, arrested by Officer Jones charged with disorderly conduct, was dismissed.

Pearl Brown, arrested by Officers Jones and Nicholson charged with drunken and disorderly conduct, was fined $10.

Ruth Henderson and Nellie Warfield, arrested by Officers Jones and Nicholson charged with similar offenses, were fined $5 each.

Lillian Blair, arrested by the same officers on a similar charge, was dismissed.

George Griffin, arrested by the same officers for interfering with them while in discharge of their duty, was fined $5 and in addition sent to jail for 30 days.

Edward Graney, arrested by Lieutenant Smith for stealing $40 from Clifton Perdue, was dismissed, the plaintiff declining to prosecute the offender.

Raymond Walker, charged with using abusive language toward Emma White, was dismissed.

Personal.

Messrs. Garvey and Roberts, members of the Alexandria police department, who have been guests at the Gilbert Hotel for the past few days, left Thursday for Lynchburg for a short stay before returning home. While in this city they gained a host of friends, and left delighted with Richmond.—[Richmond News-Leader.

Miss Anna Gertrude Kearney daughter of the late Capt. and Mrs. Henry Kearney, and Rev. Wilbur Pierce Johnson of Delaphane, were married in Washington yesterday. The bride's father was an officer in the Confederate army. Rev. W. F. Locke, officiated, and Rev. J Frederick Peake, of Washington, acted as best man for Mr. Johnson.

Col. C. A. Dempsey, U. S. A., retired, now instructor of the Virginia State militia, is in the city on a short visit to his brother, Mr. P. J. Dempsey.

Recent Act of Vandalism.

Since the return of Mr. E. H. Kemper's family to this city a further investigation has been made of the acts of vandalism committed during the summer in his residence, on the west side of Fairfax street, between Prince and Duke. An account of the destruction of furniture, crockery ware, &c., was given in the Gazette at the time. Two detectives from Washington have been in this city making a thorough examination of the matter. A number of scurrilous letters attacking Mr. Kemper, which had been received by different persons and sent by the recipients to him, have been turned over to the detectives. The Alexandria police, who had made an exhaustive investigation of the strange affair, are satisfied that the perpetrator or perpetrators of the outrage entered the house with keys, as no doors or windows were broken. A glass pitcher which had been taken from Mr. Kemper's house it is said, has been recovered.

The Heath Ark.

After a conference with Robert S. Hume, president of the Independent Steamboat and Barge Company, Commissioner Macfarland, of the District of Columbia, stated that he is satisfied the steamer Bartholdi will not in the future engage in carrying gamblers from the District to the Heath ark, a short distance below this city. Commissioner Macfarland also stated that the co-operation of Mr. Hume would be in the form of refusing the Bartholdi the privilege of using the Independent Steamboat and Barge Company's wharf as long as the authorities are of the opinion that the steamer is carrying persons to the ark.

Machinists' Wages

Consideration of the wages to be paid the machinists employed by the Southern Railway in this city, Richmond, Manchester, Salisbury and Atlanta was resumed yesterday by General Manager Spencer and a general committee representing the machinists, after a ten days' interruption. It was given out by Mr. Spencer that danger of any labor troubles in the machine shops were remote. The machinists are said to advocate a nine-hour day, with an increase of 2½ cents an hour. It is understood that the company is loath to make such a change.

"The Lights of Gotham"

"The Lights of Gotham," an up-to-date play of New York life, will be presented by a competent company at The Opera House on Monday, September 10, for one night only. The story of the play is a most interesting one, dealing with the dark and bright side of life in Greater New York. Its characters are ones you meet in everyday life and the plot is a double one and hinges on incidents in the life of a young stock broker, George Walters. The comedy element of the play is very strong, four of the leading characters being of the fun-making style. Additional interest in the play is guaranteed in effective scenic environments and novel electrical devices.

LOCAL BREVITIES.

A suit was instituted in Richmond yesterday by the Robert Portner Brewing Company vs. the Monticello Club for $250.

The horse attached to an Adams Express wagon ran away on King street this morning and turned into Pitt where it was stopped by colliding with a building. Neither the horse nor wagon was materially damaged.

The old excursion steamer Samuel J. Pentz passed up the river last night in tow of the tugboat William H. Yerkes and was anchored in the forks of the channel this side of the Washington channel.

The colored man found in an unconscious condition on the commons near "Colross" yesterday was dead drunk and not dead, as reported.

The schooner A. H. Quinby belonging to Carter and Clarke, of Washington, is hauled out on the railway at the shipyard for repairs.

The schooner Reulahland, from Philadelphia with fertilizer to W. A. Smoot & Co., has arrived.

FRIDAY EVENING, SEPT. 7, 1906.

Iowa's Largest Chicken Hatch.

Mr. Richard Boulanger, of Alexandria county, who is much interested in poultry raising, sends the following from the Maxwell, Iowa Tribune which will be of interest to those using incubators:

The largest and most remarkable chicken hatch that has ever taken place in the history of Iowa, or perhaps in the world, from the incubators of a single individual, occurred at the home of Mrs. D. C. Johnson, four miles northeast of Maxwell, Saturday, July 21st, and was witnessed by over 200 persons from Maxwell, from neighboring farms and many came for miles to see this unusual exhibition.

On that day Mrs. Johnson took from her incubators, 2,330 little chicks, losing only 140 eggs from those left from her final test out. This is quite an unprecedent showing, and that she had demonstrated her ability in thoroughly understanding the natural law of incubation is seen in the fact that she advertised that she would hatch 2,000 chicks on this day, and she exceeded her promise by 330. That it has paid her well goes without question when it is known that she sold her little chicks for $138 and her expenses were $35, leaving a profit of over $100 for three weeks work.

All night long Mrs. Johnson stood and watched and fanned her incubators to keep her chicks from smothering. The machines were all in one room, size 19x18 feet, and placed double deck to save space. The animal heat from the chicks made the room like an oven.

Mrs. Johnson has her incubators and brooders made to order, and she has proved them a success. She has hatched this season in all, 4,800 chicks, and with the aid of her two young girls, does her own work.

In hatching chicks, 104 degrees is the danger point. She made this wonderful hatch at 102 degrees the first week, 103 the second and third weeks, and during the three weeks she never allowed the temperature to go above 104. A high temperature will cause chicks to die in the shell.

Able to Fly.

Though Santos-Dumont broke his flying machine in his experiments in Paris yesterday, he proved that it was able to fly. The moment the big 50 horse power Antoinette motor was set in motion the machine took a flying leap forward about two yards above the ground, the bicycle wheel on which the light craft is built continuing to revolve rapidly from the impetus of the start. The rate of speed was calculated at about twenty-five miles an hour, but Santos-Dumont stopped the machine after going 200 yards, bringing it gently to the earth. He was greatly surprised at the ease with which he could steer the craft sideways and up and down. In starting, the machine was so damaged as to make it evident that some mechanical secrets are still to be learned in connection with the important matter of getting off the ground. In spite of mishap, this was at least, as one of the few witnesses remarked, "the first time recorded in the history of the world, certainly before trustworthy spectators, that mechanical flight for any appreciable distance was attained."

A Remarkable War Relic.

Col. James A. Turner has the most remarkable relic of the war of 1861-65 except that owned by R. T. Knox & Bro., of Fredericksburg. Sunday he was out in Spotsylvania and went to the home of Mr. Geo. Perry with parties viewing the battlefields. Mr. Perry had picked it up on the field near "Bloody Angle." The relic is a federal bullet imbedded in the big end of a ramrod of a gun. The gun was evidently held to the shoulder of a Confederate soldier in the act of being fired, when the bullet struck the big end of the ramrod squarely and there became fixed. The ramrod is bent for more than two inches. Some people may be credulous as to the statement of its being a federal bullet and a Confederate gun. The bullets used by federals had three rings and those by Confederates two. The bullet referred to, while somewhat battered, has plainly three rings.

Letter from Navy Yard Employee.

Secretary Bonsparte yesterday received the following letter from one of the employees at the Brooklyn navy yard. The man signs his name, and adds: "For all the club." For obvious reasons the name of the writer is not given.

"We beg you will not recognize the so-called labor unions in our navy yards, as they have no love or respect for this government, but want to run this country and place it where Russia is today.

"In the Brooklyn yard about one-half of the so-called union men can be found in the closets talking strike or how to beat the timekeepers. (Have someone watch them.) They tried to destroy our ship Connecticut, yet no one was punished, although it cost this government thousands of dollars to protect our ships and yards from the Gompers dynamiters, who would run this country. He should be hung for high treason. Very respectfully submitted."

A Scientific Wonder.

The cures that stand to its credit make Bucklen's Arnica Salve a scientific wonder. It cured E. R. Mulford, lecturer for the Patrons of Husbandry, Waynesboro, Pa., of a distressing case of Piles. It heals the worst Burns, Sores, Boils, Ulcers, Cuts, Wounds, Chilblains and Salt Rheum. Only 25c at E. S. Leadbeater & Sons' drug store.

Make a note now to get Ely's Cream Balm if you are troubled with nasal catarrh, hay fever or cold in the head. It is purifying and soothing to the sensitive membranes that line the air-passages. It is made to cure the disease, not to fool the patient by a short, deceptive relief. There is no cocaine nor mercury in it. Do not be talked into taking a substitute for Ely's Cream Balm. All druggists sell it. Price 50c. Mailed by Ely Bros. 56 Warren Street, New York.

That should make you think about preparing your Children's School Outfits. But little more than two weeks to do it in, it would be advisable to begin now.
